INSTRUCTIONS FOR AUTHORS IN "FCAA"

John A. Smith [1], Virginia S. Kiryakova [2]

Abstract

Text of abstract follows in 5-10 lines. "FCAA" is LaTeX published journal. To prepare a manuscript, use basically "\documentclass[11pt]{article}" and page size "\textwidth 12.5cm, \textheight 19cm". Specific files "fcaa.cls", "fcaa_style.tex" and template are available in the "Author's Kit" folder at the journal's websites, or by e-mail. Follow strictly the style of the sample and of the papers published in "FCAA". Recommended size 12-16 pages.

MSC 2010: 26A33, 33E12, 34A08, 34K37, 35R11, 60G22

Key Words and Phrases: fractional calculus, special functions, integral transforms

1. Introduction

Headings like DEFINITION, THEOREM, LEMMA, REMARK should be indented and typed in SMALL CAPITALS, *the text of the propositions should be slanted*, P r o o f. spaced and indented, finished by □; the equations numbered at the right hand-side. References should be arranged in Alphabetic order by Family Names, in style as below. To create internal hyperlinks, use commands and texts like: \begin{theorem}\label{Th#} ... \end{theorem}; \begin{equation}\label{Eq#} ... \end{equation}; \section, ... equation (\ref{Eq#}) in Theorem~\ref{Th#} ...; \bibitem{Ref#} and \cite{Ref#}.
